

# CRYPTOCURRENCY VILLAGE CHALLENGE

NEW

The Cryptocurrency Advocate supports your exploration of modern finance technology by hosting workshops and distributions at Defcon, the world largest hacker convention. A recent addition to the Defcon contest lineup is the bodacious:

## CRYPTOCURRENCY CYBER CHALLENGE

...where teams of cryptohackers compete to win prizes by undertaking offensive and defensive security practices.

If you've wondered how a POS, ATM, hardware wallet, or secure element really work, then come to the Cryptocurrency areas at Defcon to gain new perspectives of finance technology.

The Cryptocurrency Village's educational offering covers more than just blockchain based technology. Visitors are encouraged to exchange ideas relating to any finance hacking practice for the common good. We distribute items relating to several classic projects including Litecoin, Monero, Bitcoin, Ethereum, and others.

Show your cryptohacker style with high quality wearables, custom hacker badges, and simple addons. Try new devices, devkits, and electronics, with on site presence of manufacturers and staff mentors. Inform yourself of new developments in finance by exploring the Cryptocurrency areas at Defcon, your one stop shop for fintech hacker goods and information.

Since Defcon 26 (2017) we have served a family and child friendly environment. A stable and balanced group, the **Cryptocurrency Advocate** especially thanks all the underage hackers for your regular visits to our convention areas. [info@cryptoadvocate.cc](mailto:info@cryptoadvocate.cc)
